Quality Policy

Being an ISO -9001:2008 certified company our professional set up maintains a strict policy of providing quality products and services that offer Reliability & Safety.

Products & Solutions

Channel Partners to some prominent International brands in Power & Instrumentation Cables, Energy Meters, Switch Gears , Instrumentation and Industrial & Commercial LED lightings. Most of the products can be immediately supplied from our ready inventory.

Our trained sales team enables easy product selection based on specific application and works closely with customers in understanding the requirement and concern areas to ensure that the product offered is suited to the application and requirement.

A dedicated, well-trained and certified service team is also in place to back up the sales. They ensure that our customers can confidently depend on us for their products and solutions requirements even at odd hours.

Our Clientele

- **Food, Beverages & Distillery**
- **Telecom**
- **Educational Institution**
- **OEM**
- **Textile /Spinning Mills**
- **Engineering**
- **Oil Refinery**
- **Chemicals**
- **Steel / Foundry**
- **Automobile**
- **Pharmaceutical**
- **Cement**
- **Commercial/Housing complex**
- **Glass Indsutries**
- **Power Generation**
- **Hospital**
- **Airports / Aeronautics**
- **Paper Industries**
- **Other Industries**

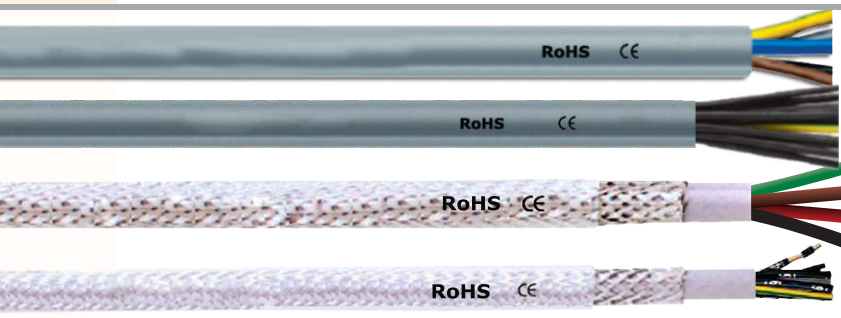

TRADE RANGE OF PRODUCTS

Power Cables

- ➔ **LT/HT Cables** Copper & Aluminium
 - Armoured & Un Armoured Cables (1.1 KV to 33 KV)
- ➔ **TRAILING Cables**
 - EPR, PCP, CSP & NBR

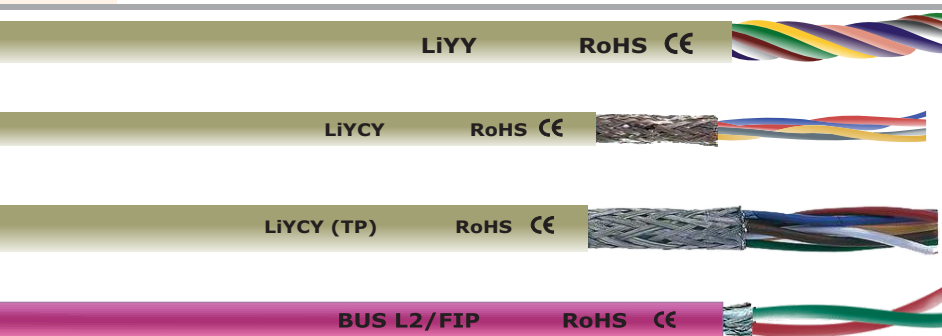

Controls Cables

- Multi core & single core
- Number & Colour Coded
- XLPE, PVC, PUR

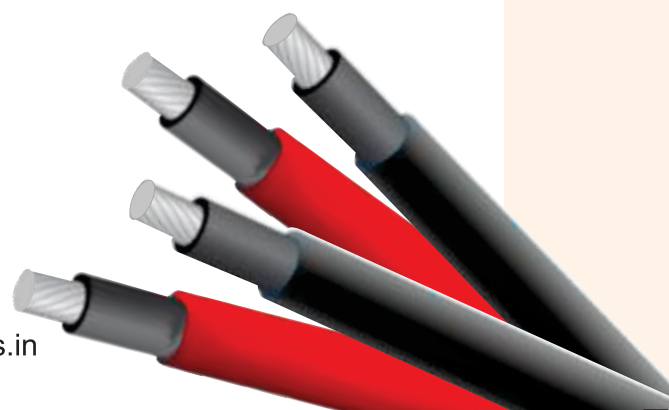

Instrumentation Cable

- Data/Signal communication cables,
- Servo cables, Robotic cables
- Bus Cables/LAN/Customized cables

Temperature Resistant Cables

(For temperatures from 110° C to 1565° C)
Fire Survival Cable
Silicone Cable/PTFE/FEP

Switch Gears

- ⊙ MCB/MCCB
- ⊙ Control relays
- ⊙ Contactors
- ⊙ MPCB
- ⊙ RCCB
- ⊙ ACB
- ⊙ Changeovers
- ⊙ Capacitors
- ⊙ Electrical control panels
- ⊙ Motors for all applications(0.12 kw to 1250kw)

Automation / Instrumentation

- Meter: RPM /Amp/Volt / KWH/ Prepaid Meters
- Multifunction meter/ Demand controller/ Earth leakage relay
- EMS Software/ Building Management system
- PLC/ Drive/ Sensors
- Panels

Cable Accessories

- ✚ Gland
- ✚ Industrial Connectors (Rectangular, Circular)
- ✚ Terminal blocks
- ✚ Cable ties
- ✚ Marking systems
- ✚ Crimping tools

LED Lightings

- Commercial lighting
- Industrial lighting
- Street lights
- Down lighter
- Under water lights
- Switches & Safety device

LIGHTINGS

EPC CONTRACT & SERVICES DIVISION

Bee Aar Controls is a "A" Class Government Electrical & Civil Contractor, this division has a long history of successful contracting and servicing executing multiple project activities in government & Industrial automation.

Our contracts division handles Electrical & Civil Works, Supply Installation testing and Commissioning of Power Substation, Internal & External Electrification, Distribution Transformers, Telecom jobs like BTS installation, Tower Erection, Supply & Laying of RF Cables, Supply & installation of Repeaters, Antennas & Solar plant, ACDB panel, Laying of OFC & EHV Cables etc.

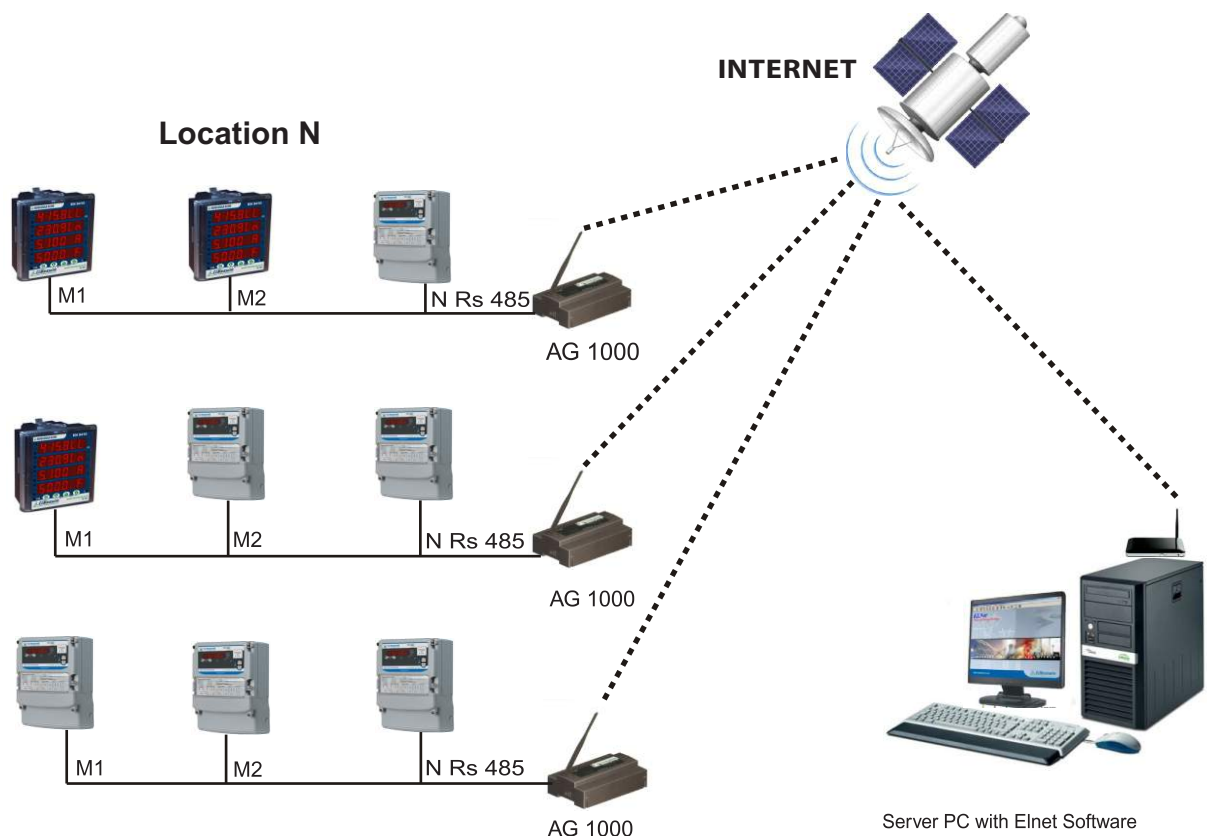

Energy Management System (EMS)

Bee Aar Controls provides Energy management System that is appropriate for Industries, manufacturing plants, intelligent buildings or any situation where an electrical automation system is used. The system provides a centralized Power Monitoring and Control facility.

The Energy Management System leads to savings in the overall cost. These savings may be from better utilization of manpower, savings in the energy consumption, non breakdowns in the system etc. Energy Management System is tailor made with great flexibility for customization for any industry. Energy Billing Systems (EBS) for commercial/housing complex, pre-paid metering, remote control meters etc.

Bee Aar Controls has achieved another milestone by Introducing Intranet Based software for customers. This in turn helps to monitor energy from anywhere in the Globe / Local Area Network.

Building Energy Management System

A Building Energy Management System (BEMS) is a computer-based system that automatically monitors and controls a range of building services, including air conditioning, ventilation, heating, lighting and other consumers of energy within the building or sometimes groups of buildings. The functional aim of BEMS is to regulate the environment inside a building in a perfectly balanced way.

Applications

- IT parks
- Hospitals
- Club Houses
- Industries
- Educational Institutions
- Hotels
- Villas and residential buildings
- Malls and commercial establishments etc.

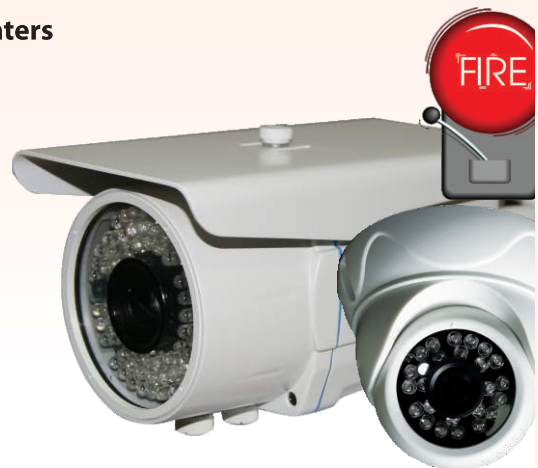

Lighting Automation

Supply & Installation Industrial / Commercial Lighting

- Office Area
- Laboratories
- Malls
- Explosive Areas
- Plant Buildings
- R & D Centers

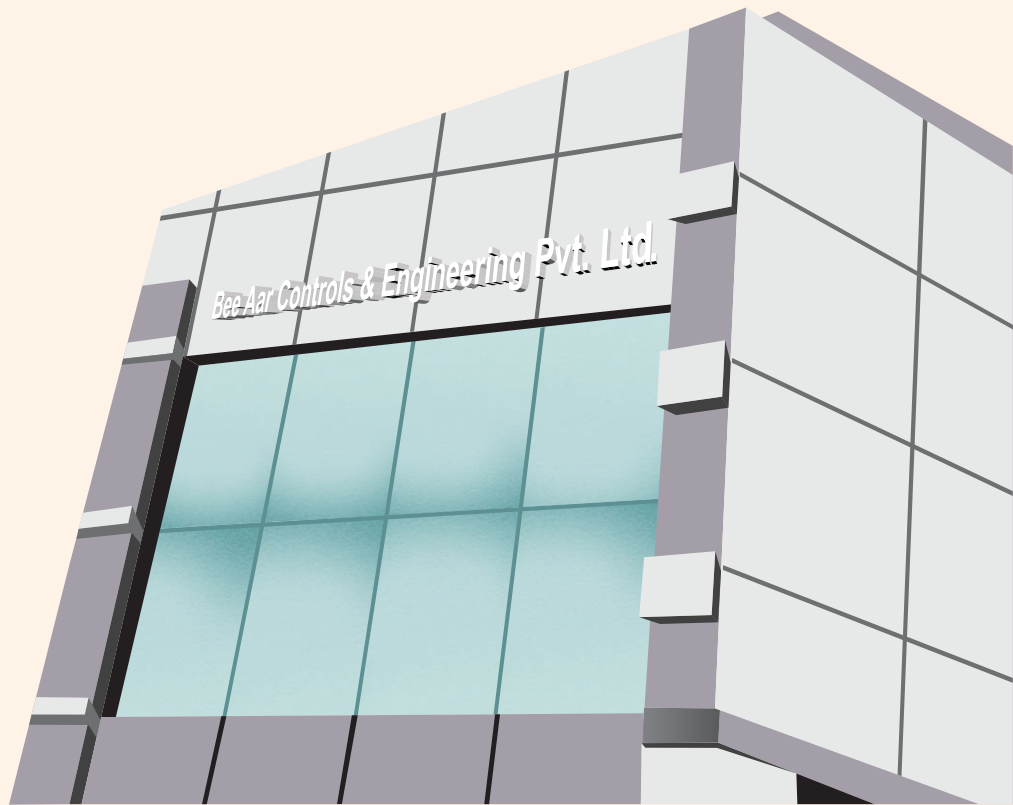

Security System

- CCTV & Networking
- Public Address System.
- Fire Alarm System
- Security and Access Controls.
